

# LPC550x/S0x: Baseline Arm<sup>®</sup> Cortex<sup>®</sup>-M33-Based Microcontroller Family

## LPC550x

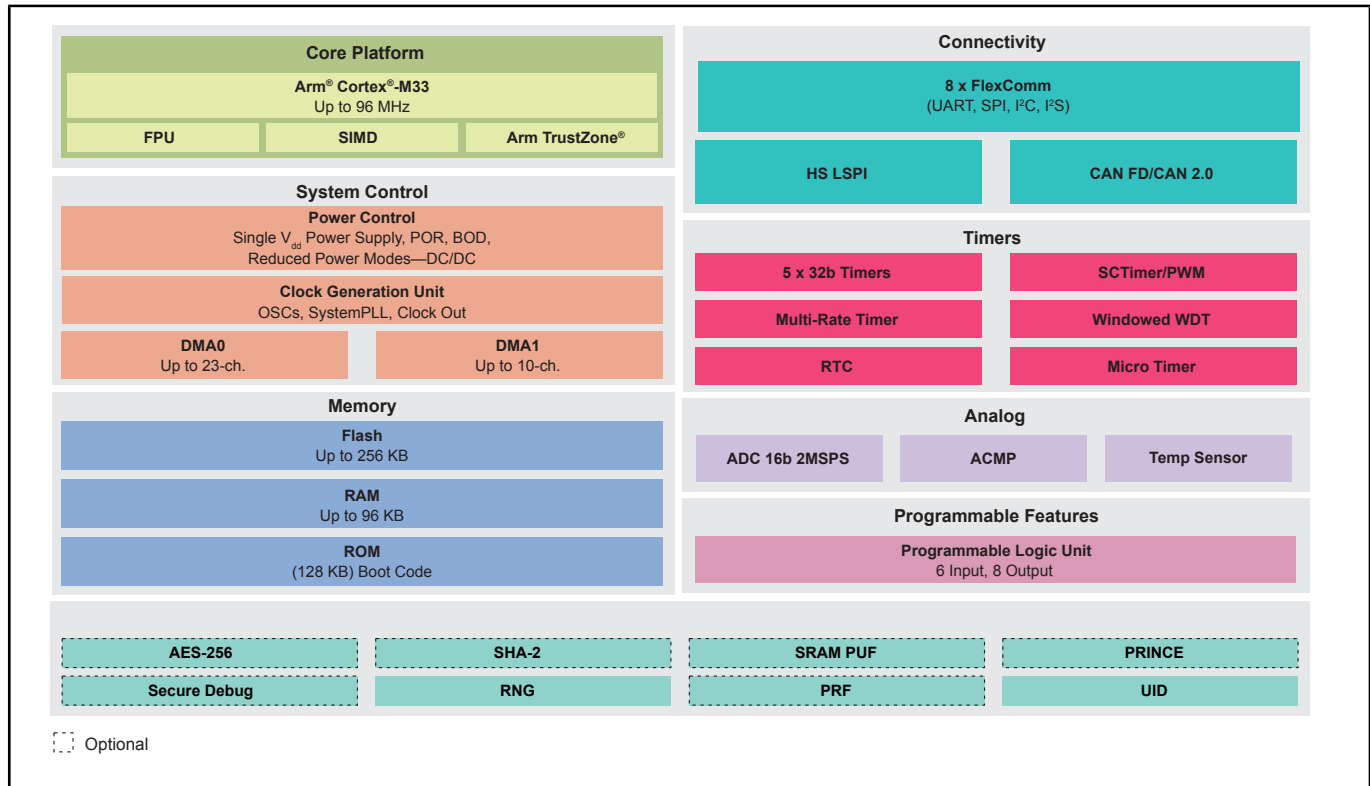

Last Updated: Apr 11, 2024

The baseline LPC550x/S0x MCU family, with its lower cost options and smaller footprint, further expand the existing general-purpose LPC5500 MCU series. Its advanced security and safety integration offer applications an extra level of protection.

Offering excellent ecosystem advantages for developers, including pin-, software- and peripheral-compatibility in addition to a comprehensive portfolio of software and tools, the LPC550x/S0x MCU family helps accelerate time to market.

This family of MCUs is part of the EdgeVerse™ [edge computing](#) platform and inclusive of the LPC55S06, LPC55S04, LPC5506 and LPC5504 MCUs.
