# Layerscape LS1024A Reference Design Board

LS1024A-RDB

Last Updated: Nov 22, 2023

The Layerscape LS1024A reference design board (LS1024ARDB) is a compact form-factor platform that enables evaluation and development for a wide variety of applications ranging from high-end VoIP and video-enabled home gateways, small-to-mid-sized business (SMB) and high-performance security appliances, and Ethernet powered 802.11n enterprise access points.

The LS1024ARDB also features an expansion connector suitable for adding additional components such as an LCD panel.
