# FRDM Development Board for MCX C041 MCUs

FRDM-MCXC041

Last Updated: Sep 23, 2024

FRDM-MCXC041 is a compact and scalable development board for rapid prototyping of MCX C041 MCU. It offers industry-standard headers for easy access to the MCU's I/Os, integrated open-standard serial interfaces and onboard MCU-Link debugger. Additional tools like our Expansion Board Hub for add-on boards and the Application Code Hub for software examples are available through the MCUXpresso Developer Experience.
