

MAPS-56F84000 Evaluation Suite

MAPS-56F84000

Last Updated: Nov 29, 2022

The MAPS-56F84000 evaluation suite is a full-featured, multi-function development platform for the 56F84xxx digital signal controller (DSC). This suite includes a controller board with MC56F84789VLL on board and a motor control driver board which can drive dual PMSM motor at the same time. Use this suite to evaluate the exciting performance of NXP's powerful DSC products customized for motor control applications.
