

Evaluation Baseboard for TJA11xx PHYs

TJA11xx-EVB

Last Updated: Jun 18, 2024

The TJA11xx-EVB board acts as a hardware evaluation baseboard for 100BASE-T1 or 1000BASE-T1 PHYs. The evaluation board is designed to be a breakout board that can be used as host board for [TJA1104](#) / [TJA1120](#) SABRE daughter boards. Moreover, the EVB allows access to all relevant signals that the baseboard exposes on the SABRE connector and also provides power to the SABRE daughter board.
